Subject: Access and SOW needs for July work

Hi Kristen,

Have you had a chance to contact the owner of the property to the east of Tower Standard? I'd like to get an access agreement signed for our July work and I know REI is pursuing a similar arrangement with her. In order to meet our 7/11 schedule we would like to get the conversation started and an agreement sent out for her review.

Also, can you provide any specific details on what the Tribe needs for an SOW for the MiHPT work? I know that Chris sent out a message regarding the SOW earlier this week.

Lastly, I have been in contact with Tom Kady in our ERT lab in New Jersey. They have contractors that can provide very useful imaging products based on our data from the MiHPT work. I will work with Bristol and the lab so we can get our information into the database. I believe that I can also access Tom's expertise for advise as we consider source control measures later this summer.

Please let me know if you have any questions.

Thank you.

Bob
